

**Do you want to do it safely?**

Then read on .....

... we would like  
to introduce you  
to the Wave®

# What is Wave®?

An electrically powered vehicle for movement and stocking of non-palletised goods or maintenance at low heights.

In research the Wave® has proven that tasks such as stocking shelves can be achieved 48% faster whilst reducing operational fatigue by up to 90%.

*wāve*<sup>™</sup>  
WORK ASSIST VEHICLE

## How can I use it?

Where you  
use ladders

Move ladder into  
position

Balance goods  
to be stocked

Climb ladder  
to stock goods

*wave*<sup>™</sup>  
WORK ASSIST VEHICLE

## How can I use it?

Much easier  
with Wave®

Goods are lifted to  
position on 90kg tray

Operator is at exactly  
right height to work  
efficiently and safely

*wave*<sup>™</sup>  
WORK ASSIST VEHICLE

# Using ladders at 2m and more can be dangerous

Leaning and stretching from an insecure base

Awkward/heavy goods must be brought down manually

Ladders must be pulled/pushed in position in confined spaces

*wāve*<sup>™</sup>  
WORK ASSIST VEHICLE

With Wave® it's simple & safe

**wave**<sup>™</sup>  
WORK ASSIST VEHICLE

Leaning and stretching can be eliminated by the Wave®'s ability to travel at height

With a width of 750mm and length of 1500mm the Wave® can travel in the most congested areas

Awkward/bulky loads can be brought down securely and safely

# Customer Views

“We’ve been impressed with the machine – and the time it can save us.”

“Will be superb for stocktaking as the man-hour costs we will save will more than cover the weekly rental costs of the machine.”

“Time and effort savings certainly outweigh the purchase price of the Wave®.”

“What I like most about the Wave® is its time saving and its mobility.”

“Wave® is very useful, for restocking of shelves in store, POS or general maintenance, order picking and displays”.

“A job of restocking shelves which can take up to an hour and a half using ladders took only half an hour with the Wave®.”

“We used to work with ladders but they have now been banned from the stores for safety reasons.”
