

Farmi -hydraulic winches for many kind of purposes

## KV140

### RADIO OPERATED HYDRAULIC WINCH FOR CRANES

KV140

EASY TO MOUNT ON THE CRANE OR ON THE TRAILER

RADIO CONTROL

PERFECT SPOOLING

HIGH CABLE CAPACITY

**Radio operated elektrohydraulic FARMI KV140 winch to be mounted on cranes powered by 12 V el-system and hydraulic of the tractor**

- Can be operated electrohydraulically by a radio (or by a lever control)
- Can be mounted on the liftboom of the crane or on the trailer
- High cable capacity 40 m / cable diameter 6 mm
- Pulling power 14,0 kN / 175 bar
- Perfect spooling / Separate pulley as standard
- Weight only 45 kg

Farmi -hydraulic winches for many kind of purposes

## EV450T

### HYDRAULIC FRONT WINCHE TO BE MOUNTED IN THE FRONT OF TRACTOR

EV450T

COMPACT SIZE

PULLEY AS STANDARD

WORKS AS FRONT WEIGHT

- operated by a rope
- can be mounted on the front or on three point linkage of the tractor

#### TECHNICAL DATA

#### EV450T

**Cable capacity**

100 m / ø 8 mm (80 m / ø 10 mm)

**Cable speed**

0,41-1,02 m/s (60 l/min) with 160 cc hydr.motor  
0,26-0,65 m/s (60l/min) with 250 cc hydr.motor

**Pulling power** (pressure 175 bar)

45 kN (250 cc hydr.motor), 33 kN (160 cc hydr.motor)

**Width, height, length**

600 mm, 1030 mm, 500 mm

**Weight**

170 kg

**Brake**

Automatic safety brake
